PROFILE SUMMARY

Computer Science graduate (AI & ML, CGPA 8.58/10) with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, Python, Java, and C, and hands-on project experience across AI/ML, full stack development, and cloud fundamentals. Top 40 selectee, Samsung Innovation Campus Advanced Python program. Seeking to contribute as a Specialist Programmer / Digital Specialist Engineer (Trainee) at Infosys.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering (AI & ML) CGPA: 8.58 / 10

Pre-University Course (PCMB) 87.77%

SSLC 91%

TECHNICAL SKILLS

Programming & DSA: Python, Java, C, Object-Oriented Programming (OOP), Data Structures & Algorithms, Problem Solving

AI / ML & Tools: Machine Learning, LLMs, Ollama, Whisper AI

Web Development: HTML, CSS, JavaScript, PHP, Flask, MERN Stack (MongoDB, Express.js, React, Node.js), Full Stack Development

Databases: SQL, MySQL, DBMS Fundamentals

Version Control & Cloud: Git, GitHub, AWS (basics), Microsoft Azure (basics)

Other: Cyber Security Fundamentals, Networking Basics

PROJECTS

AI Chatbot using LLMs and Ollama

- Engineered an AI-powered chatbot by integrating open-source LLMs (via Ollama) with SQL-based data retrieval, enabling natural-language querying of structured databases.
- Designed prompt-handling logic and query pipelines that translated user intent into accurate SQL queries, streamlining data lookup for end users.

AI Video Transcription & Translation Platform

- Built a full-stack Flask application leveraging Whisper AI to deliver speech-to-text transcription and multilingual translation for audio/video content.
- Automated the end-to-end media processing pipeline, reducing manual transcription effort and supporting multiple languages.

Placement AI Dashboard

- Designed and built an interactive analytics dashboard to visualize placement trends and outcomes for data-driven decision-making.
- Applied data visualization and reporting techniques to surface actionable insights from placement data.

File Management Automation System

- Built an automated file-organization system to classify and sort documents, improving document management efficiency.

College Bus Management System

- Developed a system to manage bus routes, schedules, and student allocation, streamlining transport coordination.

TRAINING

Samsung Innovation Campus — Top 40, Advanced Python Training Program

- Selected among the Top 40 students for an advanced Python training program.
- Strengthened Python programming, debugging, analytical thinking, and problem-solving skills, later applied in AI/ML projects.

CERTIFICATIONS

- Samsung Innovation Campus — Python
- IBM Cyber Security Fundamentals
- Cisco Networking Basics
- DBMS Fundamentals
- AWS Academy Graduate — Machine Learning Foundations
- AWS Academy Graduate — Cloud Foundations
- Introduction to Cybersecurity — Cisco Networking Academy

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Participant, Adobe India Hackathon
- Delivered technical presentations on AI Translation Tools and ATM Server Systems

Languages: English, Kannada, Hindi, Urdu

Soft Skills: Leadership, Teamwork, Communication, Critical Thinking, Time Management
